

NFOYE DJOMO DARYL DEWILDE

Software Engineer — Full-Stack Developer

📍 Douala, Cameroon ✉ nfoyedewilde@gmail.com 📞 +237 699-25-57-53 🌐 portfolio.daryldev.dev

🎯 Objective

Software developer with full-stack software engineering skills. Eager to grow professionally and contribute to high-impact projects that advance technology on a global scale.

🎓 Education

- **Bachelor of Technology in Software Engineering**, Douala University Institute of Technology (2024)
- **Higher National Diploma (HND) in Computer Engineering**, Douala University Institute of Technology (2023)
- **GCE Advanced Level Sciences**, NAL Bilingual Academic Complex (2021)
- **GCE Ordinary Level Sciences**, NAL Bilingual Academic Complex (2019)

🔧 Technical Skills

- **Programming Languages:** Python, JavaScript, PHP, Go
- **Frameworks:** Django, Flask, React, Bootstrap, Material UI, Cypress
- **Databases:** MySQL, SQLite, PostgreSQL (basic knowledge)
- **Systems & Tools:** Ubuntu/Linux, Git, Docker, CI/CD
- **Other:** Algorithms, Data Structures, Object-Oriented Programming (OOP), Fluent in English and French

🌟 Certifications

- CS50W: Web Programming with Python and JavaScript – Harvard (2023)
- CS50P: Introduction to Programming with Python – Harvard (2023)
- CS50X: Introduction to Computer Science – Harvard (2023)
- CS50T: Understanding Technology – Harvard (2022)

📁 Professional Experience

- **Software Engineer**, Maviance PLC (Oct. 2025–Present) – Working within a fintech company using Agile/Scrum methodologies, contributing to micro frontends, connectors, and QA automation improvements.
- **Software Engineer Intern**, Maviance PLC (Jan. 2025–Oct. 2025).
- **Full-Stack Developer Intern**, FGCL (Sept.–Nov. 2024) – Developed Django and React Native applications and optimized APIs.
- **Web/Mobile Developer Intern**, QTA Tech (Jun.–Aug. 2024) – Developed REST APIs using Django.
- **Software Engineer Intern**, FGCL (Dec. 2023–May 2024) – Participated in requirements gathering, analysis, design, and implementation of various software solutions.

🔗 Projects

- **Tech Quiz Application:** React and TypeScript platform for technology quizzes featuring CRUD APIs, leaderboards, an admin dashboard, and dark/light modes.
- **Toy E-Commerce Website:** Prototype online store for children's toys.
- **Story Sharing Web Application:** Platform for sharing and streaming text, audio, and video content.

- **Inventory and Sales Management System:** Web and mobile application for sales management, invoicing, and barcode scanning.
- **AI Text Generation Web Application:** Flask application using the GPT-3 API for summaries, translations, and other AI-powered features.
- **eBay-Style Auction Website:** Django-based auction platform with bidding, comments, and watch-list management.
- **Fraud detection system:** Production-ready fraud detection platform with authentication, analysis history, and explainable risk scoring.
